Segment Software Version Description

Netscape Calendar Server (NSCAL)
Version 1.0.0.0/1.01 (Windows NT 4.0)

December 8, 1997

Table of Contents

Preface

The following conventions are used in this document:

Bold	Used for information that is typed, pressed, or selected in executables and instructions. For example, select **connect to host**.
Italics	Used for file names, directories, scripts, commands, user IDs, document names, and Bibliography references; and any unusual computerese the first time it is used in text.
Underline	Used for emphasis.
Arrows <>	Used to identify keys on the keyboard. For example <Return>.
"Quotation Marks"	Used to identify informal, computer-generated queries and reports, or coined names; and to clarify a term when it appears for the first time. For example "Data-Generation Report."
Courier Font	Used to denote anything as it appears on the screen or command lines. For example `tar xvf dev/rmt/3mm`.
Capitalization	Used to identify keys, screen icons, screen buttons, field, and menu names.

1. Software Version Description

1.1 Scope

This Software Version Description (SVD) contains a description of the Netscape Calendar Server (NSCAT) segment for the Defense Information Infrastructure (DII) for Windows NT-based machines.

1.1.1 Identification

Segment Name:	Netscape Calendar Server
Segment Type:	COTS
Prefix:	NSCAL
Home Directory:	*C:/h/COTS/NSCAL*
Required License:	Netscape Calendar Server License
Version Number:	1.0.0.0/1.01
Platform:	Intel PC/Windows NT 4.0

1.1.2 System Overview

Purpose:	NSCAL is a calendar server application produced by Netscape Communications Corporation that provides corporate-wide open standards-based calendaring and scheduling of people, groups, and resources.
Usage:	NSCAL can be used to schedule events and tasks, to schedule conference rooms and conference calls, and meetings across an enterprise to include remote and mobile users.
References:	"Netscape Calendar Server - Administrator's Guide (NT)" from Netscape Communications Corporation (accompanies each licensed copy of the Netscape Calendar Server). On-line documentation accompanies the software, and additional documentation can be downloaded from Netscape at *http://www.netscape.com/*.

1.1.3 Product Information

Product Qualification:	NSCAL has been approved for delivery by the DII Engineering office.

Restrictions: This product can not be distributed to foreign countries.

Product   This segment requires that a functioning copy of Netscape Communicator
Dependencies: be present on the system prior to installation.

                           This segment requires that the commercial off-the-shelf (COTS) product,
                           Netscape Calendar Server, has been installed on the target computer
                           before the actual segment is installed via the COEInstaller program. If
                           Netscape Calendar Server is not installed, the installation will terminate.

2. Referenced Documents

This and other segment documentation provides segment description and installation instructions. User administration and usage is provided in the Netscape Calendar Server Administrator's Guide for Windows NT. Further information about this product can be obtained from the Netscape Communications Corporation web site at:

http://search.netscape.com/comprod/server_central/index.html

3.   Version Description

3.1   Inventory of Material Released

Two 3.5" diskettes comprise the software delivery. One is labeled "1 of 1; master" and the other "1 of 1; backup." Each disk contains NSCAL in "MakeInstall" format. Also included in the delivery are 3.5" floppy disks containing the delivery documentation.

3.2   Inventory of Software Contents

The software delivered is "Calendar Server, Version 1.01" as produced by Netscape Communications Corporation.

3.3   Changes Installed

Not applicable.

3.4   Waivers

The following delivery documents have been waived by the DII Engineering Office: Software Requirements Specification, Database Design Document, System Administrator's Manual, Software User's Manual, Operator's Manual, and Software Test Plan.

3.5   Adaptation Data

Not applicable.

3.6   Installation Instructions

Installation Instructions for this segment are provided in a separate document. The segment requires 10 MB of disk space (COTS Product) and 32 MB of RAM.

3.7   Possible Problems and Known Errors

None.

This page intentionally left blank.

4. Notes

None.

This page intentionally left blank.
